"The NHS provides a comprehensive service, available to all... It has a duty to each and every individual that it serves and must respect their human rights."

NHS Constitution, paragraph 1.1

The story of Mid Staffordshire is one of bad care, denial of dignity and unnecessary suffering on the part of many patients. This seminar looks at how the Human Rights Act can be used to challenge poor and unsafe health care and obtain accountability for patients and families – both through litigation and through practical work to help the NHS develop services which respect human rights.
